

FAQ

Diabetes

- **Beta cells** are **cells** that make insulin, a hormone that controls the level of glucose (a type of sugar) in the blood. **Beta cells** are found in the **pancreas** within clusters of **cells** known as islets.
- E-Medica Improves the cell charge of Beta cell
- Which in turns to improves the function of the organ to enhances the production of the insulin
- **The fat layer in the blood restricts the insulin to reach the cell** which cause **High blood sugar for Diabetic patient**, E-Medica burns the fat layer in the blood which helps the insulin to reach the cells, which helps to **reduce the blood sugar level in a Healthy way** without use of **Harsh Chemicals**.
- While using the E-Medica burning fats in the blood reduces the thickness of the blood , **Thick blood** or hypercoagulability is a condition where the **blood** is **thicker** and stickier than usual. When a person has hypercoagulability, they are prone to excess **blood** clots.
- While stimulating your body thru E–Medica, it improves the blood circulation, improves the Overall Health parameters in a Natural and Non Invasive way.

Parkinson

- **Tremor.** A **tremor**, or **shaking**, usually begins in a limb, often your hand or fingers, Slowed movement (**bradykinesia**) Rigid muscles, Impaired posture and balance, Loss of automatic movements, **Speech changes**.
- **Parkinson's** disease is **caused** by a loss of nerve cells in the part of the brain called the substantia nigra. Nerve cells in this part of the brain are responsible for producing a chemical called dopamine.
- E-Medica helps to enhance the charge of the Nerve cell, which in turns to improve the health of the patient.

Acute Kidney Failure

- **Acute kidney failure** occurs when your **kidneys** suddenly become unable to filter waste products from your blood. When your **kidneys** lose their filtering ability, dangerous levels of wastes may accumulate, and your blood's chemical makeup may get out of balance.
- The **renal** corpuscle consists of a tuft of capillaries **called** a glomerulus and an encompassing Bowman's capsule. The **renal** tubule extends from the capsule. The capsule and tubule are connected and are composed of epithelial **cells** with a lumen. A healthy adult has 1 to 1.5 million nephrons in each **kidney**.
- E-Medica helps to enhance the charge Epithelial cells, which in turns to improve the Kidney function, which improves the Urine output of the patient gradually

Cholesterol

- **Cholesterol** is a fat-like, waxy substance that helps your body make cell membranes, many hormones, and vitamin D. The **cholesterol** in your **blood** comes from two sources: the foods you eat and your liver. Your liver makes all the **cholesterol** your body needs.
- **Cholesterol** and other **fats** are carried in your **bloodstream** as spherical particles called lipoproteins. The two most commonly known lipoproteins are low-density lipoproteins (LDL) and high-density lipoproteins (HDL)
- E-Medica helps to burn the fats in your blood , it also improve the blood circulation , and improves the cell charge of the blood cells, Which in turns to maintain the cholesterol levels with the use of E –Medica.
- With the use of E-Medica it helps to burn the Protein fat in the blood which in turns to increase the Vitamin level in the blood

Obesity

- **Obesity** is linked to the development of **cardiovascular** diseases, including atherosclerosis and hypertension, and to an increased risk for **heart failure** (HF). **Obesity** has been shown to adversely affect left ventricular structure, as well as systolic and diastolic function.
- E-Medica helps to **burn the fats in your blood** , **it also improve the blood circulation** , and improves the cell charge of the blood cells, Which would help the **user maintain the body weight** , **without exercise** ,
- The fat cells in the body gain fat thru fat in the blood E Medica helps to burn the fat in the blood
-

HOW OBESITY AFFECTS YOUR BODY

Hypertension Blood pressure

- A **high** level of **cholesterol** in the **blood** doesn't have obvious symptoms, but it can increase **your** risk for conditions that do have symptoms, including angina (chest pain caused by heart disease), **high blood pressure**
- **E – Medica** helps burn the fat in the **blood** which in turns in smooth blood flow , It supports to stabilize the **Blood Pressure** of the user

Thyroid

- HYPO OR HYPERTHYROIDISM is a clinical condition wherein the function of Thyroid gland is disturbed.
- E- Medical reverts back the morphology correcting the dysfunction of gland thus requiring very less medication which is for life time

Cancer

- Cancer is preponed duplication of cell before it attains maturity
- Because of early duplication the cell membrane can not get its strength
- If we strengthen the cell membrane the rate of duplication can be retarded which in turn will control the progression of malignancy
- With its dedicated frequency, current and voltage E-Medica will strengthen the cell membrane thereby increasing the membrane stability which will dampen the progression of disease
- This has the advantage of reduction in dosage of ant malignancy therapy and its side effects.
